FARJANA AKTER LAILA

Mid-level developer
Navy Colony-2, Chattogram, Bangladesh • +880 1571736651
E-mail: farjanaakter7275@gmail.com
Portfolio • GitHub • LinkedIn • Code-Forces • UVA

Objective

Experienced in web and mobile application development with 1.5+ years of professional experience. Skilled in building responsive user interfaces, integrating APIs, implementing new features, debugging and fixing issues, optimizing application performance, and collaborating with development teams. Looking to contribute to challenging projects while continuously improving my technical skills and growing as a software engineer.

Skills

Languages	TypeScript • JavaScript • HTML • CSS
Expertise	React.js • Next.js • React Native • Expo • Expo Router • React Router • Tailwind CSS • Styled Components • React Query
Comfortable	REST APIs • Node.js • Express.js • PostgreSQL • MongoDB • Firebase • Apollo Client • Redux • i18next • JWT
Familiar	Docker • GitHub Actions • Playwright • Sentry • Amplitude • NLP
Tools	Git • GitHub • Figma • Vercel • VS Code

Projects

Soundmade | Music & Creator Platform

Technology: React Native, Expo, TypeScript, Apollo Client, GraphQL

- Developed mobile application features for artist profiles, music discovery, competitions, events, and saved content.
- Integrated APIs and refined mobile experiences for chat, comments, navigation, media uploads, and pitch management.

Kiibee | Digital Content Marketplace

Technology: Next.js, TypeScript, NestJS, PostgreSQL

- Contributed to creator and viewer workflows for profile management, content discovery, creator settings, and digital content purchases or rentals.
- Improved marketplace usability through interface refinements and Danish-English localization support.

Foodime | Restaurant Management Platform

Technology: Next.js, React, TypeScript, PostgreSQL, Zustand

- Developed dashboard features for restaurant operations, including order management, payments, employees, menus, categories, extras, and coupons.
- Implemented reusable UI components and improved workflows involving forms, filtering, sorting, pagination, and status dialogs.

Rhymusol | A Musical School Website of Summer Camp

Technology: React, Tailwind CSS, Firebase Authentication, Express.js, Daisyui, MongoDB

- The website features user, instructor, and admin dashboards with restricted access based on assigned roles, ensuring customized functionalities and maintaining security.
- User can choose the class of his choice and go to his dashboard and make payment. Instructor can add class and can see his added class and can see feed-back by admin.

Professional Experience

Mid-level Developer Apr-2026 – Present

XIIA

- Designed scalable and reusable frontend solutions using **React.js, Next.js, React Native, Expo, and TypeScript**.
- Worked on application architecture, performance optimization, and improving overall code quality and maintainability.
- Integrated and managed **REST and GraphQL APIs** using React Query and Apollo Client.
- Investigated complex technical issues and implemented solutions to improve application stability and user experience.
- Collaborated with designers, backend developers, and QA to plan solutions, review code, and deliver features effectively.

Software Developer Feb-2025 – Apr -2026

XIIA

- Implemented responsive UI and application features based on provided designs and requirements.
- Developed reusable components and contributed to maintaining existing web and mobile applications.
- Integrated APIs and worked with forms, validation, and application state management.
- Fixed UI and functional bugs and performed debugging across different application flows.
- Participated in code reviews, testing, and development tasks under team guidance.
- Gained hands-on experience with Git, GitHub, React, React Native, and modern development practices while contributing to project delivery.

Education

International Islamic University Chittagong July-2020 – Dec 2024
Bachelor of Computer Science & Engineering
CGPA: 3.681 out of 4.00

Bangladesh Navy School and college, Chittagong 2018
HSC | Science
GPA 4.50 out of 5.00

Bangladesh Navy School and college, Chittagong 2016
SSC | Science
GPA 5.00 out of 5.00

Thesis & Research

Advanced Sarcasm Detection Using Transformer-Based Models: Analyzing Variations in Formal and Informal Languages
Thesis: January 2025 | **Published:** 07 June 2026

- Researched transformer-based models for detecting sarcasm in both formal and informal language.
- Analyzed language variations and evaluated model performance for sarcasm detection.

Publication: Wiley – *Applied Computational Intelligence and Soft Computing*

Problem Solving

- Code-Forces: Solving 253 problems. c/c++ problems solving.
- Uva: Solving 80 problems. c/c++ problems solving.

Achievements

- IIUC Competitive Programming Bootcamp Autumn-2021 - Best Performer
- IIUC Intra Dept. Programming Contest - 3rd

Courses And Activities

Complete web Development Courses [Link] Dec-22-June-23

Programming Hero with Jhankar Mahbub (Batch-7)

- Completed an intensive full-stack web development course covering HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB, and REST APIs.
- Successfully earned the Black Belt achievement by completing the course requirements and demonstrating consistent performance throughout the program.

IIUC Competitive programming Bootcamp [Link] Dec-21-Oct-22

Autumn-2021 & Spring-2021

- Developed algorithmic problem-solving and data structure skills through intensive competitive programming practice and coding challenges.

Extracurricular Activities

- Executive Member of IIUC Computer Club
- Teaching Assistant | Complier |IIUC
